CONNECT – with AUTOMATER

Capture "Legacy" and Digital Press, Finishing & Mailing Equipment, Shopfloor Data
Breakthrough Ease & Accuracy – Actionable Information Reduces Downtime Cost

SaaS

CONNECT is cloud-based with an on-site Virtual Server. It is offered as a subscription per machine, with a low one-time setup fee that includes installation, training, hardware, updates, etc. A one-time purchase option with low monthly maintenance is available.
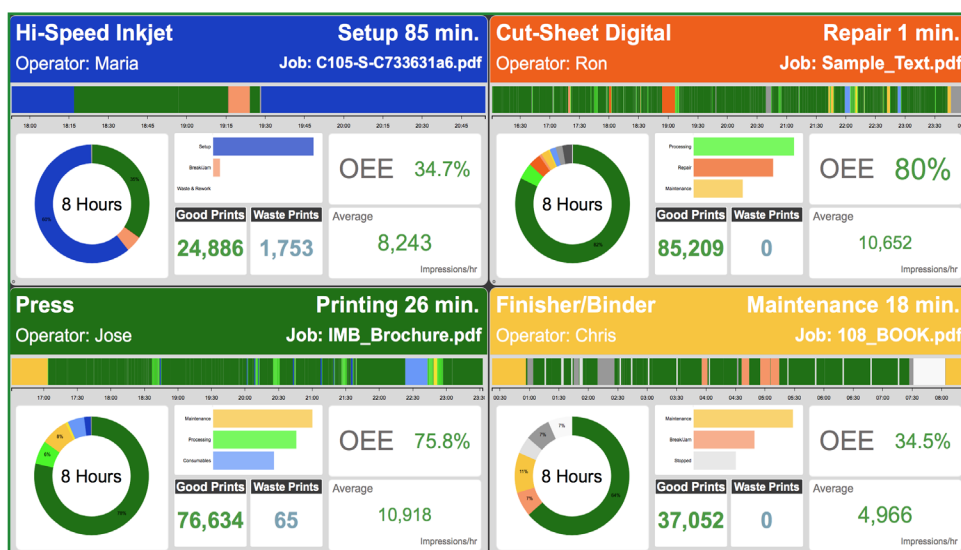

NO HIDDEN COSTS

Ease-of-Use

CONNECT's fast deployment gets the system up and running within days. Automatic machine data collection combined with breakthrough operator usability makes data collection simple. Accessible from any browser, the Management Portal provides reports on demand and/or periodically with full graphics and real-time analyses.

Simple yet Powerful

Intuitive and graphical analytics dashboard gives management powerful insights with actionable information facilitating root cause identification of productivity bottlenecks. Comparisons, job cost analysis, operator logs, and drill-down features enable users to maximize their utilization and ROI.

| Hi-Speed Inkjet | Setup 85 min. |
| Operator: Maria | Job: C105-S-C733631a6.pdf |

8 Hours — OEE 34.7%
Good Prints 24,886 — Waste Prints 1,753 — Average 8,243 Impressions/hr
